the period 1907-1913 marks a crucial transitional moment in American cinema as moving picture shows changed from mere novelty to an increasingly popular entertainment. fledgling studios responded with longer running times and more complex storytelling. A growing trade press and changing production procedures also influenced filmmaking in early American cinema. In transition, Charlie Keil looks at a broad cross section of fiction films to examine the formal changes in cinema of this period and the ways that filmmakers developed narrative techniques to suit the fifteen minute one reel format. Keil outlines the kinds of narratives that proved most suitable for a single reel's duration, the particular demands that time and space exerted on this early form of film narration, and the ways filmmakers employed the unique features of a primarily visual medium to craft stories that would appeal to an audience numbering in the millions. He underscores his analysis with a detailed look at six films: *The Boy Detective*, *The Forgotten Watch*, *Rose O'Salem Town*, *Cupid's Monkey Wrench*, *Belle Boyd*, and *A Confederate Spy*, and suspense.

contains many of the papers presented in a mini symposium on statistical analysis modeling of automotive emissions held in August 1999. The articles represent the efforts of approximately 20 authors, co-authors from across industry, government, academia, cover a diverse array of topics regarding fundamental methodological issues, advanced statistical techniques, specific case studies. Two papers included in the mini symposium involved the assessment of sulfur in diesel fuel on the performance of emissions control devices, the forecasting of ozone standard exceedances that occur partly in response to vehicular traffic volume dispersion.

What is project independence? The sources and uses of energy in the United States have changed dramatically in the last several decades. As a result, in just one generation we have shifted from a position of domestic energy abundance to a substantial and continually growing reliance on foreign energy sources. Project Independence is a wide-ranging program to evaluate this growing dependence on foreign sources of energy and to develop positive programs to reduce our vulnerability to future oil cut-offs and
