from the author's preface this book was conceived four years ago almost to the day at a time when i was teaching fiddle and mandolin in new york city it was my idea then with my students in mind to compile a book of the most often played most important and most interesting fiddle tunes from the various celtic and north american traditions the tunes were chosen by cataloging a large number of recordings by tune title a tally was taken to find out which had been recorded most often this established a foundation of material that could not be left out to this list i added the names of other pieces which had not been recorded as frequently but which i knew were played regularly and with respect i admit to sprinkling the collection with a few lesser known tunes which happen to be personal favorites but i am sure they will hold their own when placed next to the old war horses of the fiddler's repertoire although i started out with my students in mind this book has turned out to be the book that i've always wanted and i hope that it will serve the advanced player as well as the beginner
